## SUMMARY

Game developer with 2 years of experience in Unity, C#, and Game Design. Proven ability to develop engaging mechanics, optimize performance, and implement interactive systems. Successfully published a game on Steam, integrated FMOD for dynamic audio, and delivered UI, inventory, and combat systems to enhance player experience.

## SKILLS

**Strong Knowledge:** Unity, C#, Game Design

**Good Knowledge:** Narrative Design, Game Production, Steamworks Integration

**Basic Knowledge:** Vue.js, Cloud, Autodesk Maya, Unreal Engine

## PROFESSIONAL EXPERIENCE

### Game Developer

Danta Game Studio, Jaraguá do Sul, BR

11/2023 to Present

**Core Responsibilities:** I started as an independent game developer, where I gained in-depth knowledge of game design, programming, and production, contributing to the creation and publication of engaging and immersive games.

As a **Game Developer**, I have:

- Designed and developed game mechanics, ensuring engaging and polished gameplay experiences using Unity and C#.
- Implemented interactive systems, including UI, inventory, and combat mechanics, enhancing player immersion and usability.
- Optimized game performance, reducing loading times and improving frame rates to ensure a smooth gaming experience.
- Integrated audio systems using FMOD, enhancing sound design and dynamic music transitions.
- Successfully published a game on **Steam**, handling the entire submission process, store page setup, and community engagement.

**Key Technologies and Tools:** Unity, C#, FMOD, Game Design, UI/UX, Performance Optimization, Gameplay Programming, Steam Publishing.

### Managed Services Trainee

Iteris Consultoria e Software, São Paulo, BR – Remote

02/2021 to 02/2023

**Core Responsibilities:** I started as a Consulting Intern, where I gained knowledge of legacy backend systems, database optimization, and frontend technologies, contributing to efficient and scalable solutions for enterprise clients.

As a **Managed Services Trainee**, I have:

- Developed and maintained backend solutions for a legacy system using a non-OOP language, ensuring compatibility and performance in a critical business environment.
- Optimized database queries and implemented SQL Server functions, reducing processing time and improving system efficiency.

- Designed and maintained frontend interfaces with HTML, CSS, and JavaScript, improving usability and accessibility.
- Worked on an acquiring company's platform, handling credentialing requests by troubleshooting backend services in Java and frontend components in Angular.

As a **Consulting Intern**, I have:

- Provided technical support and customization for small-scale clients using WordPress and SharePoint, enabling better content management and workflow automation.
- Assisted in frontend and backend enhancements, improving system stability and user experience.
- Created and optimized SQL Server queries to support data-driven applications with improved efficiency.

**Key Technologies and Tools:** Java, Angular, SQL Server, MySQL, HTML, CSS, JavaScript, WordPress, SharePoint.

## Cultural Exchange

Au Pair in America, Albany, NY, USA

03/2019 to 03/2020

### Core Responsibilities:

- Adapted to a new culture and language while managing responsibilities independently.
- Developed strong organizational and time-management skills by structuring daily routines.
- Proactively sought and coordinated external activities, enhancing planning and problem-solving abilities.

**Key Technologies and Tools:** Adaptability, Problem-Solving, Organization, Initiative, English Fluency.

## Support Technician I

T-Systems do Brasil, Blumenau, BR

04/2016 to 07/2018

### Core Responsibilities:

- Monitored servers, files, and NFe processing to ensure smooth operations.
- Escalated high-priority tickets and managed expiring SLAs.
- Utilized remote access tools and enterprise platforms to support IT operations.

**Key Technologies and Tools:** HP Service Manager, SAP, SharePoint, WebEx, Citrix, IT infrastructure monitoring tools.
